

ATV/RIVER COMBINATION

ATV ITINERARY

- The day of departure you will need to meet at Adrift Adventures at least 15 minutes before the departure time to check in for the ATV trip. At our office you will receive instructions regarding the trip.
- The Moab topography consists of a mix of slick rock, rocks, sand, gravel, and dirt. You can blaze through river crossings, traverse along cliff bands, and navigate over drops, steps, and jumps. The area has miles of trails, most of them existing for decades, many forged out by uranium miners in the boom days of the 1950s. Traverse incomparable trails, witness stunning scenery, spot spectacular overlooks and vistas.
- You will be following our rig truck, with the ATV's, out to the trailhead, in your own vehicle. This is so that you don't have to wait the 30 minutes or more that it will take your guide to reload all the machines onto the trailer. That way you can come back to our office for your afternoon river trip!

COLORADO RIVER / FISHER TOWERS TRIPS

- The Fisher Towers section of the Colorado River is heavy on scenery, with some fun rapids (depending on the water level/time of year). This is an area where many motion pictures and commercials have been filmed over the years. John Wayne and John Ford filmed a lot of old westerns in this area. Most recently filmed in this area was *The Lone Ranger* with Johnny Depp & Armie Hammer (2013).
- For this tour you will need to meet at our office (unless a hotel/campground pick up has been arranged). At 378 North Main St. (right next door to the Comfort Suites). From our office we will transport you up Hwy 128 (Top 10 most scenic highways in America) to Rocky Rapid (about mile 17). This will take 30-45 minutes, depending on traffic and other circumstances. Once at Rocky Rapid, your guide will go over some river safety instructions, once everything has been covered you will board the raft. Unless you have requested a paddle boat, your guide will be doing all the rowing, so you get to sit back, relax, and enjoy the scenery. As you make your way down the river to Take-Out Beach, and your departure point for the Afternoon Half Day tour, your guide will provide you with archeology, geology, and river history. Your guide will also point out various land marks and answer any questions you may have on your journey. Once the raft reaches the take out point at Take-Out Beach, you will disembark from the raft. The guides will then need to load the boats and equipment back up on the trailer, then you will be able to load back up on our shuttle vehicle, and we will bring you back to our office in Moab, concluding your adventure. The drive back from Take-Out Beach could take 30 or more minutes.
- This is a calm water trip, with small rapids, class 1 & 2. Depending on water levels there is the chance for a class 3 rapid on this section. The rafts are set up where the guide will be doing all the rowing. Paddle boats (where everyone paddles) are an option upon request (24 hour advance notice required).
